Product & Application Engineering

Pune, India

- Developed responsive web applications using **React, Node.js, and JavaScript** with reusable components and responsive layouts.
- Built a full-stack **Student Management System** integrated with custom **REST APIs** for managing student-related data and workflows.
- Worked with a 5-member development team to implement application features, debug issues, and maintain clean code structures.

Projects

Captain Cool — AI Cricket Analytics Platform | React, Node.js, JavaScript, Python, Scikit-Learn

🐙 Code 🌐 Live

- Built an AI-powered sports analytics platform processing historical cricket data to provide player insights through an interactive **React** dashboard.
- Implemented data analysis and machine learning workflows using **Python and Scikit-Learn** for player performance and match analysis.

Agentic AI Nurse — Healthcare Assistant | AI, LangChain, Python, React, Node.js

🐙 Code 🌐 Live

- Developed an AI-based healthcare assistant using **Python, LangChain, NLP, React, and Node.js** to process user health-related queries.
- Implemented conversational workflows and condition-based routing to organize user queries and generate relevant responses.

OurTalk — Real-Time Chat Application | React, Node.js, Socket.io, JavaScript, MongoDB

🐙 Code 🌐 Live

- Developed a real-time messaging application using **React, Node.js, Socket.io, and MongoDB** for real-time client-server communication.
- Implemented user authentication and MongoDB data management for secure and persistent chat functionality.

AI Resume Analyzer & Optimizer | AI, NLP, Python, React, Node.js

🐙 Code 🌐 Live

- Built an AI-based resume analysis platform that parses resume content and evaluates formatting, keywords, and ATS-related parameters.
- Implemented automated keyword analysis and resume validation workflows using **Python, NLP, React, and Node.js**.

Achievements

- Tata Power Selection:** Selected by **Tata Power** during the third year of Diploma in Information Technology through the institute selection process.
- Academic Performance:** Secured **86.56%** in Diploma in Information Technology and currently pursuing B.E. in Artificial Intelligence & Data Science with a **8.45 CGPA**.
